Joe: As you approach your Diamond Jubilee I have no doubt you will all go on to fulfill your dream of performing at a big exciting London theatre or concert hall. You will continue to face problems of course. People won't take you seriously, Some will muck you around and many would still rather turn away from the reality before them. But never give up on your dreams, any of you....

A long time ago some people told me that "Music is the Universal Voice". No matter who you are or where you come from, music opens your heart, it touches every part of the world we hold dear, bringing loved ones ever near - MUSIC IS MAGIC.
