

Translator Madison reads out the strange language, followed by the English translation.

Translator Madison: Cisum si cigam. Ti snepo pu roy tra! Leef ti na esu ti secoot reve trap! Fo et drow ee lo red. Nignirb de-vol se-no rev! Socisum si cigam ot em....

Madison (starts) and Martian Leader (joins in and finishes)

Music is Magic. It opens up your heart and touches every part. Our sound can heal everything in the universe, from the tiniest organism to the largest planet because we are all the same. We live by the same energy source – the sun.

9 Finale: A Giant Leap for your World

At Letter C the Martian leaders present magical space gifts to the crew who study them in amazement. Gifts from Earth are presented in return.

Letter F: *(spoken poem)*

Crew 1: One small step for you

Crew 2: Is a giant leap for me

Crew 3: But we live under the same star in this galaxy

Letter G: *(spoken poem)*

Crew 4: With music as my guide

Crew 5: I take life in my stride

Crew 6: And if I don't look back

Crew 7: I will find someone to hear the music inside

Letter N:

Martians (chanted): Our frequency is 4..3..2. The heeling sound we sent long ago.

Crew: Please send us your power again. Heel our people with the music you know.

Captain: As captain of MMP Galactic, on behalf of our Earth, please, save our planet.... MAKE IT SO! *(music begins as crew cheer)*

Captain: Together....ENGAGE!

3 bars after Letter T:

Captain: Fire up the engines! MMP Phone Home! London, we're on our way back to the Blue Planet!

9 Finale: A Giant Leap for Mankind

Cue: We live by the same energy source - the sun

David Stanley
